June 16.—Esti-mates of the loss of life by Sun-day's cloudburst differ widely, but the number of dead is certain to reach 300, and it may be swelled to 500 when all are accounted for. This evening 150 bodies had been recovered and buried. At least 150 more are missing, and at this time the most reliable estimates place the number of dead at 300. All day long help in the shape of provisions, blankets and men who have come to bury the dead or help restore order out of the confused conditions has poured in. HEPPNER (Or.) June 16.—Confusion has been so great here that no accurate estimate of the number of lives lost by the flood could be made, and it is believed that all estimates sent out heretofore have been too high. Tonight 130 bodies have been recovered, and it is believed that the total number of dead will not exceed 200.

It is quite certain that a large percentage of the bodies carried beyond Heppner will never be recovered. The flood has been kind, in that it buried many of its own dead. The President's special arrived here from Washington at 11:30 o'clock this morning. The Monticello Guards were on duty at the depot, and kept back the crowd that had a sambled to see the distinguished guest. Visitors have been pouring into the city since yesterday, and hotel rooms and teams were at a premium this morning. The President was cheered as he stepped from his car. He was met by Dr. Paul Barringer, chairman of the day's corries, and a committee of alumni. The party was driven direct to the university, where the expecises were held in the public hall. Here the students welcomed the President.

"While the plants are somewhat in a formative stage," he said, "yet I have little doubt that they will be worked out to a feasible basis, and I have confidence in the company being able to accomplish much good. Able gentlemen are taking the initiative in the matter, and I think that whatever they attempt to do will be certain of success,"

"Will you give some idea of the objects of such a company?"

"The objects," replied Parry, "are to protect all its policy holders against losses arising from strikes, and also to protect independent workmen who care to exercise their great American privilege of working for whom they please. In order to do all this, a considerable fund will be done. You must not suppose we intend to enter upon a great scheme of coercion of our employes. COAST CONDITIONS FAVORABLE. WASHINGTON (D.C.) June 16.—The

says that generally favorable conditions prevailed on the Pacific Coast, except during the early part of the week in Washington, where drying northerly winds proved finjurious in some sections. The week was unseasonably warm in the eastern portions of Oregon, in Idaho and Northern Nevada.

While planting, replanting and cultivation of corn in the central valleys has been vigorously pushed, considerable planting has been unfinished in the northern district.

Winter wheat harvest progresses as far north as the southern portion of Kansas, Missouri, Illinois, Indiana and Virginia. While an improvement in the condition of this crop is indicated in Northern Illinois and over the northern portions of the Middle Atlantic States. In California the crop is maturing rapidly, and the harvest is in progress in the southern portion, with heavy yields. He was taken before a United States Commissioner, where he gave bond for his appearance in court. A decoy letter sent from the Treasury Department and a registry receipt for a letter sent Assistant Secretary Taylor, were found on Eaton. Chief Wilkie, who caused the arrest, says that in May Taylor received a letter from Eaton saying he had a piece of property in Corning which would prove an admirable site for the proposed postoffice building; that he was not familiar with the method of placing his proposition before the government, but he was willing to "make it right." Mr. Taylor referred the letter to the solicitor, the supervising architect, and Chief Whikie of the Secret Service. A decoy letter was sent Eaton stating that the portion of his letter referring to "making it right" was interesting. Within a few days Taylor received a second letter from Eaton in which he stated the property cost him \$13,000, and that he was willing to sell it to the sovernment for \$15,000, and further that he was willing to accept \$1000 as his share of the profit and give the Assistant Secretary the remainder. A portion of the feet plays the part of the Japanese navy, while the ships that came to the Far East recently play that of the Russian navy. Admiral Alexieff is commanding the movements of the ships from his flagship, the Buric. The scene of the maneuvers is said to extend from the Gulf of Pe-chi-li of the Korean-Sea, where the ships now sailing for the Far East have arrived.

Extensive maneuvers will take place in the neighborhood of Korea.

An arm, a leg, a toe, a finger, a lock of hair, a tuft of clothing: these are harbingers of horror beneath the mud. Babies and little children lie there buried, with many a gash or bruise on their tender bodies. Forms of women frequently come to light bereft of all clothing. The bodies are borne to Roberts' Hail to be washed and dressed by en; to be shrouded in coarse white oth, and ta be laid in rough wooden locks. There is no time for ceremo. The floors swim with the half-dil. 3d mud that drips from the victims, but the living patter through it, or sweep it out when it gets too deep. The rough boxes go to the cemeteries, not singly, in hearses, but many at a time, piled high in wagons. Social lines are all crased in the disaster. The aristocracy of the town delves in the mud with the lowly.

Medicines are not needed here, neither are physicians nor nurses. The town must-be cleaned up if it would escape postilence. It must have more men to help clean up, and provisions to feed them would be welcome. Many families are entirely destitute, all their worldly possessions having been carried away. The whole row of houses next to the creek was swept away. Spectators of the calamity describe the structures as falling like card houses. The dwellings were tossed about like bobbins and most of them fell completely to pieces. The town had perhaps 250 houses, nearly two hundred of which were demolished.

The whole bousiness part of town would have been swept away had not the Palace Hotel, a heavy brick structure, diverted the current. Houses on brick foundations fared better than others because the flood could not so easily wash under them. Only a few of those who escaped the flood were severely injured.

ALLIANCE WITH ST. PAUL.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, June 16.—[Exclusionspatch.] The surrender by ! Dispatch.] The surrender by the Northern Pacific Company of its half-interest in the Burlington Railroad to the Great Northern is part of the pro-gramme of the Harriman faction, which is planning the dissolution of the Northern Securities Company as now constituted. This is to be followed by a close alliance between the Northern Pacific and St. Paul railroads, amount

Great Northern-Burlington systems are then to take the Erie over in comare then to take the Erie over in common, just as the Burlington is now held, and make that road their common outlet from Chicago to the Atlantic. These are some of the details made public today regarding the plans of the insiders. It is said J. J. Hill and J. P. Morgan agree with the main features, but object to howfore them.

of the insiders. It is said J. J. Hill and J. P. Morgan agree with the main features, but object to having them carried out until the courts shall finally pronounce the present merger illegal.

The Northern Securities Company, as a company, being legal, and the orders of the court being directed at its ownership of the Northern Pacific and Great Northern roads, and not at its corporate life, it will not be necessary to dissolve it, if its promoters have any use for its charter. Harriman bankers, being positive of their present control of enough of the stock that was issued for the Northern Pacific to secure them control of that road, are understood to be willing to compromise and leave the company in existence. If Hill and Morgan will release the original Northern Pacific stock to them.

Hill's son. L. W. Hill of Minneapolis, who is his father's assistant, said today that the company would not be dissolved.

That the rattlesnake uses his tall to decoy birds has been observed a number of times by a correspondent of the Scientific American, who says: "The snake hides himself in the tall grass and imitates the buzzing of a bee. The insectivorous birds, such as the phoebe and kingbird, are attracted by the sound, and become an easy prey for his snakeship. Deadly Foe to Codlin Moth-Two Miners Hurt-Hearing of Walkerez.

(BY THE ASSOCIATED PRESS-A.M.) SAN FRANCISCO, June 16.—Henry Ach, attorney for the Eppingers, went into the United States District Court morning, and attacked the valid-By of the proceedings thus far had on behalf of the creditors in the matter of the bankruptcy of the firm of Eppinger & Co., and the Pacific Coast Warehouse Company. The attack was the result of the citation issued yesterday, and directed to Joshua Eppinger, sec-retary of the Pacific Coast Warehouse Company, and Herman Eppinger, president of the company, commanding them to appear and show cause why they should not be punished for contempt of court in refusing to turn over and accounts to Henry

tempt of court in refusing to turn over their books and accounts to Henry Wadsworth, the receiver.

The attorney for the Eppingers assailed the jurisdiction of the District Court as an answer in the contempt proceedings. The court ruled that this was admissable as an answer. The attorneys for the creditors asked for time to look up and prepare authorities. As a consequence the court ruled that the matter submitted with two days to the attorneys for the creditors to submit briefs, and two days thereafter to the attorneys for the Eppingers to present rejoinders. In the mean time the Eppingers will retain possession of the books.

Ach's main contention was that the defunct corporations did not come within the jurisdiction of the national bankruptcy act and that therefore the proceedings in the United States District Court were null and vold.

The attorneys for the creditors will file their brief on Thursday, and Aftorneys Ach and Dunne will have until Saturday to answer. Then the court will determine the question of furisdiction.

The brides maids were hats adorned with daisies, and their gowns were encircled with o the best methods how to clear Lon-don's slums. A huge scheme which would cost \$10,000,000 to start with was workman's National Housing Council, which is mainly composed of members of the London County Council trades unionists, guardians of the poor and Borough Councillors. To show the tracticability of the scheme involved a good deal of labor on the part of the Council, and now it seems likely that nothing will come of it.

The Council is much divided on the subject, but it is expected that in the course of two or three weeks an official report will be issued, a copy of which will be sent to Skibo Castle. Mr. Carnegie's philanthropy has never been viewed with much favor by the majority of the members who compose this council, so that it will not be much of a surprise if they reject any offer that might come from him. It is believed in some quarters that in the event of the council refusing to concerning with him he more conductions. ceremony was performed and the event of the council refusing to cooperate with him he may apply to another quarter, because it is believed that the endowment of libraries and universities is becoming somewhat monotonous and he wants another outlet for his philanthropic activity. CHICAGO. June 16.—[Exclusive Dispatch.] Bob Fitzsimons put but a fire, prevented a panic, received the plaudits of 100 banqueters and accept-ed several bouquets from admiring shortly after I o'clock this morning. He also burned his fingers, but when Miss Katharine Childs and Miss Helen Curtis of Oak Park handed him a

Curtis of Oak Park handed him a bunch of geraniums taken from a vase on the table. Robert put his hands behind his back and bowed with modest confusion, saying he would as soon fight fire as anything else.

The trouble was brought about by the sudden extinction of the electric lights. One of the waiters in lighting the gas set fire to the tapestry with a burning taper, and in an instant the flames flashed up and threatened to dep lop into a full-sized confiagration. The late diners included many actresses and actors. Women screamed, and for a moment it looked as if a panic had selzed the crowd. Bot scarcely had the tapestry become ignited when "iFtz" rose, tore it from its fastenings and rushed from the room with it, tailing smoke and glory. The flames seared his fighting hands as he went, but the pugilist clung pluckily to his job, releasing his hold only when he had deposited the burning article outside.

RUDOLF G. SCHROEDER'S WAGER, IBY DIRECT WIRE TO THE TIMES!

NEW, YORK, June 16.—[Exclusive Dispatch.] Ludoif G. Schroeder, president of the Schroeder Ink Company, and one of the most enthusiastic members of the New York Yacht Club, has wagered \$500 even with another member of the club that the Reliance will retain the cup by winning three retain the cup by winning three straight victories. The New York Yacht Club has resolved itself into a great nightly debating club on the respective merits of the two vessels. Great regret is felt because the weather conditions prevented ocean tests off Sandy Hook last week but enough was shown in one race that came off to convince the Reliance champions that Sir Thomas will have to try again, if he wishes to retain the popularity he wishes to retain the Sir Thomas will have to try again, if he wishes to retain the popularity gained for his teas in America since the first Shamrock was sent over. The interest will wane somewhat today and tomorrow, cwing to the running of the great Suburban Handicap, but by Friday the entire New York sporting. day the entire New York sporting world will be discussing nothing else but the coming contests for the Ameri-ca's Cup.

Rough measurements (by pacing) were made separately by three men well accustomed to the work to get the well accustomed to the work to get the length of various spars. They made the racing mast of the Shamrock III. 171, 170 and 168 feet long. Reports from England said it was 166 feet long, but it is at least 169. The length of the racing boom was above 168 feet. The bowsprit projects between 34 and 35 feet outboard, and the distance from the sign to the mast

the distance from the stem to the m is near 55 feet. The base of the fore is near 55 feet. The base of the fore triangle will be not far from 89 feet. With her new spars, the sail area, for the purposes of measurement, is likely to exceed 16,000 squaré feet by a large figure. It is a safe forecast to say the Reliance will have to allow the chal-lenger very little, if any, time in the races.

When Col. Neill was asked about the When Col. Neill was asked about the strength of spars and gear—a question suggested by the lightweight bobstay— he said: "We are not going to carry away anything but the cup," and, he added a moment later, "We are going to drink out of it, too. in Seattle, to discuss matters pertaining to the league.

The very fact that a meeting is to be held shows that there is something serious to be considered. The Coast league or "outlaw" people say that they have outdrawn the Nationals three to one in this State, and the Nationals make the same assertion about the Coast clubs in the Northwest. Different newspapers make both statements, depending on which league they are friendly to, and the unprejudiced fan is left to believe either, both or neither.

It is more than probable that this proposed meeting in Seattle is for the purpose of arranging a new schedule.

American turf has there been so much money bet on the result of two races as during the last two months on the Suburban Handicap and American Derby. In the two future books conducted by James O'Leary and "Nic" Weller of Chicago, nearly a million dollars has been placed on horses eiglible for the two big events of this week.

Early in the winter both men started with the idea to have \$100,000 limit on each race, but the money flowed in so steadily from all parts of the country that they had to increase the limit to mearly double that amount. It is said that nearly \$200,000 has been wagered in their books on the chances. In the four horses. These are Savable, Irish Lad, Goldsmith and Hermis.

Savable, for the Derby, and Goldsmith and Hermis.

Savable at one time was at 10 to 1. He is now 2 to 1. Goldsmith was quoted furing the winter at 40 to 1. He is now 2 to 1. Goldsmith was quoted for the books on the Brooklyn Handicap winner. All this money, at 1 to 1 each. Authentic statements that Irish Lad would surely start in the Big Chicago event caused Easternbers to send large amounts to two western bookmakers on the Brooklyn Handicap winner. All this money, at least \$50,000, is now practically "burnt up," for the coit will not go to Chita ago, and will run in the Suburban Handicap winner. FIGHTS IN SIGHT.

If present negotiations are conducted successfully, Manager McCarey of the Century Athletic Club may soon be in a position to offer local fight lovers a card that would draw as well as any championship battle. Two of these white scraps are on the string in Eddie Hanlon and Herrera for one, and the winner of the Root-Gardner fight against Fitzsimmons for the other. Letters have been sent to all the interested parties, and it was understood some days ago that Los Angeles could really have both of these fights.

HISTORY.
One of the thoughts suggested by the wholesale assassination in Belgrade is the difficulty of learning the truth of history. Here was an event to which there were a number of eye witnesses-probably a score or so-yet the stories that have come over the manner, leaving the reader in doubt as to what the real facts of the case may have been, except that about half a dozen people were ruthlessly slain. One story has it that the King repulsed the intruders in a command-ing manner, and rejected their proposals, whereas another declares that he fell on his knees, and pleaded piteously for mercy, offering to abdicate, to send away the Queen, or to do any-tning that the conspirators asked, but was told that it was too late. Again, one story states that the bodies of the vision of the constitutional or statutory King and Queen were thrown from a No. Was it to exert any influence window to the ground below, their spines being broken, while another declares that this is absolutely untrue versy between the striking miners and So it goes, all along the line, and the real facts of the case promise to reflict injustice of any kind upon any main as deeply wrapped in mystery as are the facts relating to the tragic The troops were sent to Morenci for death of Prince Rudolph of Austria the purpose of preserving the peace In the latter case, however, there were few eyewitnesses to the scene, and they were promptly taken care of. enjoyment of the rights guaranteed to them under the Constitution and

The thought that occurs to one is this: If, in this age of telegraphs and telephones, and daily newspapers with news-hungry reporters, it is so difficult to obtain the plain facts about an important event, how much importance can we attach to the history that comes down to as from a period when the arts of writing and reading when there were no printing presses to quickly record the events of the day Judging from what we see around us to find that authors differ so greatly regard to the facts of history. Many of our leading historic idols are being shattered, nowadays. We have been called upon to give up William Tell and Arnold von Winkelreid and other heroes whom we had learned to love, and recently we were told that there was no such ship as the Mayflower-or, at least, that there is ng authentic record of the Pilgrim father having come over in a vessel of that name. Perhaps, a thousand years hence, learned men will be seriously debating whether William Jennings President of the United States.

He would have been guilty of violating the spirit, if not the precise letter, of Elsewhere The Times prints letters from correspondents opposed to the purchase of the Childs place and the building of a convention hall thereon. The Times gives publicity to these communications, in pursuance of its policy of airing all sides of a question. It is difficult to see, however, how the city could make a mistake in purchasing the Childs property at a reasonable figure. Its central location and ample bounds make it an ideal location for the proposed hall, while its value is certain to increase. A test vote taken by the Convention Hall Committee showed an overwhelming public sentiment in favor of the Childs place, as against all comof the Childs place, as against all comof the Chica place, as against all com-petitors. The gentlemen in charge of the enterprise and the City Fathers are proceeding with wise deliberation in the matter, involving as it does the ex-penditure of \$1,000,000 or thereabouts; as well as other grave considerations.

The city needs and must have a convention hall; but the ways and means are to be carefully canvassed, and the time to strike will be when the iron has been duly heated.

geles Hotel Gazette "in the interest of hotel employés," advises that class of workmen to avoid a trial of strength with employers, for the following rea sons: "First, the hotel men are reas represent great wealth, equal to the banking interests of the country; fourth, hotel men possess more than average ability; fifth, while they believe in dealing justly with their employes, they have enough independence assert themselves when occasion deto assert themselves when occasion de-mands. The foregoing reasons would make a strike of hotel employés end in failure." The advice is sound.

Judging from the reports that come to hand, it looks as if Jackson and the surrounding country in Kentucky & a section that stands in urgent need of he was not even given the chance to abdicate, being told that it was too late for that.

Various causes were advanced to explain their absence, the most popular being that Her Majesty was not well, but her appearance at the opera on the same evening dispelled the idea. The truth is that Queen Alexandra desired to show in a pointed way her displeasure toward the society women whose names have lately become identified with indiscriminate gambling, and most of whom had arranged to be present at "The Oaks." MANIAC RUNS TO MOUNTAINS.

Young Attorney and Athlete Loses His Mind.

Thomas Fanlon of New York in County Hospital.

Bright Assistant Counsel of Great Company Victim of Accident.

Fair dealt at the Yanlon. Only a few weeks ago a bright young lawyer, holding the envisible position of assistant counsel of the great New York Traction Rallway Company, he is now a raving maniac, confined in the County Hospi-

Pallway Company, he is now a raving maniac, confined in the County Hospital in Los Angeles awaiting examination. With little hope for restoring his solution operation shall prove successful, his case is pitiful in the extessa. Prospects looked bright for young Falen, who is only 25 years of age. He went through Yale and distinguished himself not only in his class, so in athletics, for he was acknowledged to be the best carsman on his this team. Then he entered the Columbia Law School and graduated with leasts. Soon afterward he fell from an electric car in New York and the virtual loss of his mind is directly meetile to the injuries he sustained them. The car accident resulted in a neture of his skull, but medical skill saved his life and for years there was so any of permanent affection; but a short time ago his relatives became armed at his singular actions and length him to Southern California in the base living at No. 1016 West Piconet with his two sisters and their males and a brother. About two was are fanion were to Sierra Madre.

been living at No. 1016 West Picoset with his two sisters and their smiles and a brother. About two sets ago Fanlon were to Sierra Madre Via his relatives hoping that the time of the mountain resort would be god for him. He was in a weak milion as the result of an operation which his had undergone.

Let Thursday his mind seemed to him completely and his brother all alors were greatly alarmed, but smelled in controlling him. He was digns of religious mania. Suntraint he suddenly became a ravers saise and ran away from the

pital amid a wilderness of flowers and the congratulations of an audience that filled Blanchard Hall, surely deserved all the compliments that were heabed upon them.

The graduates are the Misses Lillian P. Mabry, Lydia J. Hirts, Alice M. Broughton, Ethna M. Green, Myra R. Cleaver, Isabelle R. Darling, Daisy O. Mitchel, Winniefred E. Taylor, Mary L. Walter, Mabel H. Wade, Margaret A. Boyde.

Boyde. Rev. Dr. J. J. Wilkins, vice-president of the board of trustees, who was com-pelled to take the place of Bishop Johnson on the programme, because the bishop was lil, said in opening that he felt like the country editor who complained that business was so had that he couldn't collect his thoughts. Dr. Wilkins briefly referred to the early trials of the hospital, which, he said, "in its genesis was very weak and humble." He stated that every

He referred to Florence Nightingale's efforts for the wounded soldiers during the Crimean War; but said that when the Civil War broke out in this country there were no trained nurses. At the close he asked: "Now, shall I say one thing more—are you going to follow nursing all your life?"

The girls scented a lecture concerning their duty to hang on to the job as long as they lived, and they looked sober. Mr. Elliott tpainted a picture of the nurse finding a patient, who was so necessary to her happoiness that she imagined she could not live without him, and then surprised the class by saving:

"You can do nobly where you are, but you can do much more nobly in that other sphere in life."

While the girls laughed, the audience applauded uproariously, for they were undoubtedly expecting to be told that if they wished to do their whole duty, they were doomed to spinster-hood.

In a few well-spoken words, Mrs. Hayriet W. Pahl, superintendent of the

VENTURA. June 16.—[Exclusive Dispatch.] Ray Jewett, the 21-year-old son of W. H. Jewett of this city. Was suffocated in a gasoline tank at this place today. Young Jewett was a driver for the Standard Oil Company, carrying oil and gasoline over the county. Today was what is known as "country day" with him, and when he left home it was supposed he was getting ready for his country trip. Later he was seen working about the tanks and company to the country when the country when the

some gasoline is left at the bottom, and it is supposed the young man went into the tank to get this gasoline out when the gas overcame him. There were evidences that he struggled hard before

The building of a very large and modern smelter at Monterey, in Nueva Leon. Mex., has cut off considerable from the south and it is probable that the rapid growth of Mexican mining will lead to the construction of numberous other modern smelting plants in the fature. Such new smelters must inevitably circumscribe the available area from which El Paso can draw raw ores for reduction, yet the growth of mining in Chihuahna and in fact throughout all of northern Mexico is so marked and rests upon such a solid basis of large mineral bodies, higher ores and experienced management, backed by adequate capital, that the territory tributary to El Paso is likely to grow more productive as its area is reduced.

ORE COMES FROM.

A Vase for German Singers.

Tiffany and Co. have completed and shipped abroad for Albrecht Pagenstcher of this city, a beautiful sterling silver vase, 18½ inches high, offered as a phize to the men's singing socities of Germany, to be competed for at a modern meistersinger contest in Frank-on-Main in June.

Among the artistic features of the vase are bas-reliefs of Emperor William and President Roosevelt, and also the head of Prince Henry. The bas-reliefs are surrounded by the respective insignise of office—the crown, the President's flag and the tied rods, symolizing the powers of government. Under the emperor's head is the motto which he chose for these festivals: "Im liede stark, Deutch bis im mark." (Strong in song: German to the marrow.)—[New York Times]

"Has—has anything happened?" she asked, in surprise at finding him home three hours ahead of time.

"Nothing to worry over," he replied with a chuckle.

"And you are not ill?"

"Not at all."

"But I can't understand why you are home. Are you going out this evening to shoot wild geese."

"Hardly. There's no great mystery about it. I happened to attend a sale to-day, and found a few things I decided to buy. As it was pretty late to go back to the office I came along with the express wagon."

"What sort of sale?" asked Mrs. Bowser, as her heart grew heavy over past recollections.

"It was a sale of antiques and relics. The gentieman who had collected them died a few weeks ago, and his widow was forced to sell. I've been looking out for such a sale for several years past. Come in and take a look at the things. You are no judge of, antiques, but you can see that I got everything at about half its cost."

She followed him into the parior, and the first thing she saw was an old-fashioned splint-bottomed rocking chair. It was big evough for two great grandmothers to rock in at once, and looked as shabby and foriorn as a veranda chair left out through five winters.

One of the interesting facts brought out by Dr. Von Schrenk's study is that, as a rule, high-grade timbers like white oak and longleaf pine, being very much denser than timbers of low grade, are not so readily penetrated as the latter by the preservative fluid; and that it is, therefore, much more economical to treat a low-grade, porous wood like beech, which ordinarily lasts only four or five years, than a high-grade timber. Beech so treated has outlasted oak several times. For a similar reason, "it would be a great waste," says Dr. Von Schrenk, "to attempt the treatment of white oak or longleaf pine, when better results will be obtained by using lobboily pine or red oak."

Dr. Von Schrenk's builetin cortains detailed accounts of different nethods of seasoning, both open-air sersoning and by klin-drying; the results of seasoning tests in different parts of the country and with different timbers; tests with telephone poles, etc. The bulletin will be of special interest to railroad man who have followed the experiments with close attention.

Ye gave me cakes and lollipops and pretty toys a score—
I never thought I should come back and ask ye now for more.
Grandmitter, sie me your still, white

An' they never find him there.

Grandmither, gie me your sightless eyes, that I may never see
His own a-burnin' fuil of love that must not shine for me.

Grandmither, gie me your peaceful lips, white as the kirkyard snow,
For mine be red wi' burnin' thirst an' he must never know.

Grandmither, gie me your clay-stopped ears, that I may never hear

My lad a-singin' in the night when I am sick wi' fear,
A-singin' when the moonlight over a' the land is white—

AW God! Fil up an' go to him a-singin' in the night.

Grandmither, gie me your clay-seld.

A-cailin' in the night.

Grandmither, gie me your clay-cold heart that has forgot to ache.

For mine be fire-within my breast and yet it cannot break.

It beats an' throbs forever for the things that must not be—
An' can ye not let me creep in an' rest awhile by ye?

A Tiny Gold Locomotive That Runs.

A Tiny Gold Locomotive That Runs.

The smallest working locomotive in the world is owned by W. A. Smith, a jeweler of Meridian, N. Y. He made it, working at odd times for three years, and has it in a glass case.

The locomotive is of heavily plated gold, and the bell, whistle and driving wheels are solid gold. The trimmings are silver. The locomotive is six and a half inches long and the tender is three inches long. The boller is three-fourths of an inch in diameter, the smokestack is two and one-sixteenth inches him and the other parts are in proportion. Kerosene is used for fuel and steam is raised in less than two minutes. The whistle blows, the bell rings and every part of the locomotive works perfectly.—[New York World.

Sodality Banquet.

The annual banquet of the Young Men's Sodality of St. Vincent's parish took place last night at St. Vincent's College. The large banquet hall was beautifully decorated in the sodality colors of white and blue, the work of members of the Young Ladles' Sodality, and the dainty menus were adorned with copies of Murillo's famous picture, the Immaculate Conception. Eighty members of the sodality were present, and there were several guests from other parishes. The toastmaster was John Herrington, and the speakers were Archbishop Montgomery, Rev. Father McCabe, Hon. H. C. Dillon and Adam Derkum, followed by impromptu speeches by the young men. Reen's orchestra rendered a musical programme during the evening, and Christopher catered.

Stole a Watch and Attempted to Escape After Being Hand-cuffed-Shot at Him.

at Him.

Just at noon yesterday Detectives Murphy and Hawley had the Eveliest chase after a coon that they have enjoyed in their lives.

George Vaughn had been reported as having stolen a watch from a man named McFadden at the Nevada stables, and the detectives had no trouble in capturing the culprit, finding the pawn-ticket on his person showing where he had hypothecated the watch. He was hand-cuffed, and started up Broadway with his captors, who anticipated no trouble, but at Sixth and Broadway, the negro broke and ran toward Hill street. Murphy fired a number of shots at the fleeing coon, who despite the cuffs, could run like a deer. Murphy declares he didn't try to hit him, at any rate he didn't. The negro ran into an alley, turned into a building in course of construction, with Murphy close after him and Hawley a good second. Next the coon darted through a door and out another only to come so close to Murphy that the latter jumped and struck him a blow on the next support of them. Waughn will be arraigned today for larceny.

MY TREATMENT

Is Honest Treatment, It is Reliable and for the "Exact Cause" and Actual Condition. This is why I am successful in curing many ailments that have become

chronic through neglect or improper treatment, or still worse, those cases which have been treated for something the patient hasn't got, which often times makes chronic troubles. Guessing at cause and conditions

won't do. Before I treat a case I must knew all about the trouble, and my examinations are such that they reveal to me what others guess at. My facilities for making these thorough examinations are complete in every detail and you will at once perceive the reliability of my methods, which are not secret methods.

SCHOOL JUMBLE. HOLLYWOOD, JUNE 16.—Since the school meeting, Saturday night, when school matters were again thrown into jumble, by the failure to unite upon an plan for building, the sectional feeling seems to have become more marked. No one shows any disposition to take a knows what to do next. The two-school proposition is admitted by the majority to be the most feasible solu-tion of the question and yet now nany of its friends are turning to the central school idea as a reasonable one.

INCORPORATION TALK.

The incorporation of Hoolywood is a much-talked-of scheme. It is posposed by some to block off a choice district, with its south line a little below Sunset boulevard and extending from Center street to Lawurel Cañon. In the district the bulk of street grading has been completed and the expenses of a town government would be comparatively light. With this accomplished, school matter and other public enterprises, needing attention, can be arranged more satisfactily by a board of trustees, than by the way they are now attempted to be done.

LICENSE QUESTION AGAIN, LONG BEACH, June 16.—A special meeting of the Council has been called for Thursday evening, when the new license ordinance, which has aroused so much objection, will be considered in detail. Nearly all the merchants in town have united in demanding its reoutfall sewer.

Bids will be opened the 29th inst. on the outfall portion of the sewer sys-tem, which is now in process of contem, which is now in process of construction. This section will commence at the intersection of Second street and Ocean Park avenue and run across the flat west of town, through Seaside Park and 250 feet into the ocean. It will contain a gate-house where matter that is not soluble will be acreened out and burned; a septid tank where all the foreign particles are supposed to eliminate themselves through the action of microbes, and a filter to complete whatever may have been left undone in the way of purification. The pipe running into the water will be made of Iron with flexible joints to prevent too great rigidity in meeting the action of the waves.

NEW SEWER SYSTEM WANTED. SAN FEDRO, June 16.—Agitation of a complete new sewer system for San Fedro is strong, and a petition asking that immediate steps be taken for the issuance of bonds to defray the cost of constructing the system will be presented to the City Trustees at the next meeting. The petition has already been circulated widely and bears the signatures of many prominent citizens. The document recites that the community imperatively demands action by the trustees at once.

June 16 -The por ulation of Randsburg has decreased by one-half since the strike of the men one-half since the strike of the men employed in the Yellow Aster and other mines. No building is going on. A special to the Californian from Ransburg today says: Last night the Napoleon Consolidated Milling Company shut down, discharging the men. Charles Adams, manager of the Merton Mining Company, will pay the scale asked until the company makes a decision. Atkinson Brothers have been paying the scale for some time past, so they are having no trouble. A representative of the Western Federation of Miners is expected here tonight. An attempt will probably be made this week to bring in non-unlon men. They tion of the Yellow Aster Company in paying the \$100,000 mortgage two months before due, in addition to pay ing the regular monthly dividend of \$20,000, shows that it is able to pay the scale asked. So far the special police have had nothing to do but sit around, there being no disturbance. Large numbers of miners are out prospecting, and about half of the people have left the camp.

THE OIL INDUSTRY

ORTHERN OIL MEN SAY IT'S HARRIMAN.

BELIEVE PRESIDENT OF S. P. IS AFTER ASSOCIATED.

Company Will Need Large Quantities of Oil in Near Future-General Manager Porter Reported to Have Given Option on His "Combine" Stock.

Notwithstanding the denilals of certain Reed Crude stockholders that it was President Harriman of the Southern Pacific who recently purchased large blocks of stock in the Associated well-informed oil men at Bakersfield, according to a special from that place, assert that Harriman was behind the

The prevailing opinion in northern oil circles is that the president of the S.P. is reaching out for other stock in the Associated, with a view to attaining for himself a controlling interest in the combine. It is asserted that he realizes that the railroads, the Southern Pacific in particular, require a supply of oil that can be depended upon for years. Oil as a railroad fuel has come to stay, and the great transcontinental lines cannot afford to be placed in a position where they may find themselves handicapped for lack of oil, and again compelled to use coal. In view of this it is argued that he has considered the probability that while his company is using much oil there are likely to be heavy dividends coming in from the Associated stock. It is also reported that the Santa Fé is somewhat perturbed over the probability of the Southern Pacific getting centrol of the Associated. This further emphasizes the fact that the railroads are clamoring for oil and are going to use much more than the producers can guarantee to supply. The lines under Mr. Harriman's control, including the Southern Pacific, Central Pacific and Union Pacific systems, will use oil as far east as the Rocky Mountains and El Paso, and will undoubtedly consume oil produced by the Associated. This, so wise ones say, is the best indication that Harri-

VESUVIUS IN MINIATURE.
POMONA, June 16.—A large banner labeled "Fourth of July Headquarsers, has been stretched high across Second street from the Armory, where the headquarters is located, to the Pacific Hotel, and another bearing the words, "Big Celebration July Fourth," has been suspended from the Pomona Implement Company's building to Wright Bros. & Rice's store, Co. D is arranging to entertain the visiting Implement Company's building to Myright Bros. & Rice's store. Co. D is arranging to enter: ain the visiting members of the companies of the State Militia, who will compete in a tactics drill for an elegant silken flag, and a military bail at the Armory on Fourth of July night, after the fireworks. The Fireworks Committee has decided to present in miniature a realitistic reproduction of the eruption of Mt. Vesuvius at the San José Hills, instead of spending the apportionment of funds for set pleces of firewroks. San José hills are especially adapted for such a novel display and the brilliant color effects of the volcanic cruption may be seen for miles. This feature will be carried out after the plan of the displays shown on the Catalina hills on summer Saturday nights. It will require much work and expense, but the members of the committee are confident of its success. It is hoped that Senator Dolitver can be secured for an address at the patriotic exercises at the school grounds in the forencon. The Parade Committee is busy arranging floats and planning the procession, which will be one of the most striking ever held here, in view of the fact of the military companies and the staff officers who will be present.

Times bring swift and sure returns. Telephone your wants to Black 1111 and our Pomona agency will take your ad, and send it to the main office.

They Don't Go to the Devil.

Senajor Chauncey M. Depew tool issue today with the Rev. Dr. Newel Dwight Hillis of Plymouth church, who said at the annual conference of Orthodox Friends that "We all go to the devil or the said with the said wi devil on \$50,000 a year—at least a great many men I know are going to the devil on that sum and few are escaping

devil on that sum and few are escaping it."

"It all amounts to this," said Senator Depew, "whether a man has first an Amilionitan bowe thought, the Versan, the temptations that take him there. If a man possesses the first or lacks well go to the devil on \$10,000 a year as \$50,000 in these days.

"Families of large incomes give sons a liberal education and it is not from the ranks of these that those are recruited who throw themselves into dissipation. The number of those who attend college who go to the devil is so small as scarcely to be appreciable. It is rather those who come to large cities from the country, sons of families of moderate means, who are apt to go to the devil. This is owing to the discomforts of boarding houses, the attractions of saloons, and the coldness of the churches. A young man who has been accustomed to be petted in his own town and who on coming to the city and going to a church of his own denomination does not find the congregation running to greet him is likely to look for soloce elsewhere, and I tell you it takes a greater will than most men are gifted with to resist the social influences of the saloon.

"The reason so few sons of families."

with to resist the social innuences of the saloon.

"The reason so few sons of families of wealth go to the devil is because family influences hedge them in until they are old enough to stand alone, which is when they are about 26, at which age there is little danger of their going astray. The tone of the colleges in which they are brought up nowadays is as hostile to dissipation as formerly it was otherwise. A man who is addicted to drink now is a social outcast. Not 1 per cent. of the sons of those who have \$50,000 a year go to the devil."-[Chicago Tribune

And it was no wonder they wanted to see, for the scenes were so prettily set and so excellently presented that even Mr. of admiring friends; on the south by

One could but wonder what a certain William Shakespeare would have thought could he have seen his play "Twelfth Night" presented by members of the Senior class at the Girls' Collegiate School yesterday afternoon. Mrs. Wright's Campaign in Pursuit of Lopez.

Making it hot for Liquor Boss of San Fernando Valley.

Only Person up There who can Wage Effective War on

As the men don't seem to be able to do anything, a plucky woman has set out to get the political scalp of Pete Lopez, the political boss of the San Fernando Valley.

He represents the boose element, the stud-horse poker crowd, and he appears to have the Supervisor from his district, Mr. Patterson, in a complete state of subjection.

state of subjection.

Mrs. Emily Wright of San Fernando

Mrs. Emily Wright of San Fernando is probably the only person in the valley of whom he is genuinely afraid. She beat him to death in her first campaign, and she is just starting on another, horse, foot and dragoons. Yesterday she was to have met him

resterday she was to have met him before the Board of Supervisors, and to have had it out with him, but Pedro discretely kept himself scarce.

This last tilt is over the matter of a liquor license. The first was when Peteran for reflection for constable of San Fernando, and through Mrs. Wright's efforts and skillful campaign was hore. forts and skillful campaign was hope

This petition has been postponed from time to time, generally at the suggestion of Patterson. Patterson is between the devil and the deep sea. One part of his district is in the Eighth Ward, where booze abides, and the other end is in San Fernando, which voted "dry."

Patterson has wriggled and squirmed so often that the people from the "dry" part of his district recently attended a meeting of the board in a body and gave him fits. They called him into the lobby before the amused eyes of the other members, surrounded him like a swarm of angry bees, gesticulating and shaking their fingers at him because they said he played them false. It was in regard to this same Pete Lopez license.

they said he played them false. It was in regard to this same Pete Lopes license.

Yesterday was the day it was to have come up for a final settlement.

Mrs. Wright had her forces all mershaled. She herself has been hurt by the failing of a saddle horse, and had to hobble in on two canes.

She led her speakers out one at a time like race horses.

The first one who spoke against the granting of the restaurant license was Dr. Joseph Widney, who lives in the city, but who owns property in San Fernando. He protested against the license as being an injury to his property. He said that a saloon or any liquor selling establishment is a much more harmful affair in a country village than in the city, where every one in the place and particularly the children do not come in contact with it. Superintendent Owen of the industrial school, recently established in San Fernando by the Seventh Day Adventists, made a heated protest when Mrs. Wright led him out. He said the school had been established there for the express reason that there was no liquor sold in the town.

Mrs. Wright's own little talk was the hot shot of the session.

She began by telling of the conditions which prevalled at San Fernando when

She said that in good faith the people of San Fernando had voted against liquor seiling last fall, and it was not right for the Supervisors to allow Lopes to get a license on any such subterfuge. She said to them: "You have the power of the Czar of Russia in matters like this, but, oh, won't you use that power as it should be used in a free country?"

power as it should be used in a free country?"

It was a very womanly and convinc-ing speech, for she said not a word against Lopez personally, although it is generally known that Judge York not long ago recommended that he be prosecuted criminally, on account of some of the facts that developed about his liquor-selling in a lawsuit recently, tried.

his liquor-selling in a lawsuit recently tried.

Mrs. Wright's speech so moved the board that Supervisor Alexander made a motion that the application of Lopes be denied.

Patterson as usual protested: he wanted the case postponed as usual. Supervisor Graham asked to have it go over that he might make a personal investigation into the merits of the affair. Mrs. Wright approved of this She said there couldn't be too much investigation.

The plea made by Patterson that Lopez couldn't get to the hearing on account of a late train, she indignantly retorted to. She said he had a good team of horses, and had the same opportunity that the rest of them had.

Supervisor Wilson finally moved that the matter be continued to be called up at the pleasure of Supervisor Patterson.

Mrs. Wright asked leave to have her

at the pleasers of the board before the matter be decided in order that they should have an opportunity to confront Lopez.

Patterson hastily interposed that he didn't think there was any necessity for them coming in again.

FOURTH ACT OF "TWELFTH NIGHT" ON THE LAWN.

MILKING DAIRY COWS.

SOLUTION OF MYSTERY OF WIL-SON'S DISAPPEARANCE.

Why Old Norwalk Rancher Left His Downy Couch at Three O'clock in The Morning-Wanted to Feel Udder of Mooley in His Horny Fist.

The mystery of the disappearance of James Wilson has been dissipated with pastoral simplicity. He was found yesterday milking cows. The anxious hunt was ended. The hysterical forebodings of his wife were calmed. James, otherwise "Scot" Wilson, stole from his couch at 3 oclock on the

stole from his couch at 3 o'clock on the morning of June 3. The last sound he heard when he tiptoed from the door was his wife's breathing. She was deep in slumper. Had she turned over and murmared "James," or "Jim," all might nave been different. In that event the town of Norwalk and the district of Carmenita, three miles south, where the Wilsons live, would not have been so deeply stirred by the unwonted event.

But as it was corner groceries were pressed into service by groups of villagers discussing the strange and unaccountable disappearance of "Scot" Wilson, a steady man, an upright man,

wilson, a steady man, an upright man a man of property. Every newcome from out in the country would be halled

and asked the question on everyone's lps: "Have ye hearn anything about

Wilson?"
There was even more than curiosity among some of the neighbors; there were mutterings that voiced suspicion. Those believed that the old man—he is 65—may have met with foul play. "Was he murdered, think ye?" was the question the old-timers asked.

But a man named R. C. Dean, working at the Lynnwood dairy, about three miles south of Los Angeles, read the report of Wilson's disappearance in The Times of yesterday morning; he looked up from the paper when he had finished reading, and saw Wilson. The old man had been there two weeks milking cows. Dean came in and notified the Sheriff's office, and will receive 550 of the \$100 reward for the discovery of Wilson. The other \$50 will go to a wilson. They are like two bables." commented one of the neighful wilson. The other \$50 will go to a

companion of Dean's who recognized Wilson from The Times' description at almost the same moment.

What solution to the mystery could have been more refreshing? Wilson milking cows! The facts on the surface show Wilson to have been and extraordinary man. In the cold and dark of the merning he slipped from his warm, soft bed, overcome with a desire to milk cows. This desire impelled him so that he could not resist. To see the cow's udder snug and moist in the palms of his hands and see the with the streams pierce the snowy foam and hear the musical ringing on the

thing like that."

Mrs. Wilson confided to intimates yesterday that the ingat before her husband stole away they had had a quarrel. But Mrs. Wilson acted quite well under the strain. She alternated between upbraiding the missing man and crying her eyes nearly out. One minute she was sure that he had gone East and had deserted her forever, the next that he had been murdered and then again that she didn't want him if he were to come back.

Mrs. Wilson was in Norwalk shop-

then again that she didn't want him if he were to come back.

Mrs. Wilson was in Norwalk shopping yesterday afternoon, and was told that "Scot" had been found. She was at first overcome with thanksgiving; then she was just joyful; a little later she was only happy; this emotion passed into one of mild pleasure; from being pleased she became just content. After this Mrs. Wilson's feelings were of a different nature, and were on an ascending instead of descending scale. The last seen of Mrs. Wilson at Norwalk yesterday afternoon was when she was disappearing up the rond toward the Lynnwood dairy. There was a cloud of dust which the horse urged to its limit was kicking behind him at his best speed. When Mrs. Wilson left Norwalk she had a grim look on her face.

A plentiful interspersion of incidents, judicrous and incriminating in character, saved the long hearing from be-coming unduly tedious. Attorney E. L. Hutchison during the

Chief Elton also took the stand and corroborated the testimony of his officers. Hutchison and Bower strove sealously to smooth over the damning evidence, but without avail. A spectator unacquainted with the reputation of the dive run by Angelo Marchesi and Joseph Fanucchi would have been given to understand by the cross-examining lawyers that "The Tobe Saloon" was merely the Sonoratown name for a chapel where beverages were served merely as part of a daily service of prayer and hymn. AWYER ORDERED. TO BE DISBARRED.

FRANK C. BRYANT'S LEGAL CA-REER IS AT AN END.

Judge Conrey Finds Him Guilty and Hands Down an Opinion Holding that Bryant has Misconducted Himself as an Attorney by Cheating Miss Mills.

Frank G. Bryant's legal career ended abruptly yesterday, when Judge Con-rey ordered him disbarred. Bryant was a young attorney con

nected with a legal firm—Miller and Brown—as a clerk. He go: into the confidence of Miss Lizzie Mills, one of the clients of the firm, and is said to have cheated her eye teeth out, as the

ward developed, he didn't know—and thus got her property into his hands. He represented to her that it wasn't worth as much as she thought. He is alleged to have finally sold it for \$4000 and to have told her he sold it for \$3000, cbolly pocketing the balance.

He was shown to have defrauded the woman in other ways.

Judge Conrey says in the opinion that he handed down yesterday:

"I have given unusual care to a review of the testimony, for the disbarment of an attorney is not a thing to be lightly done. But the facts are so clearly against the respondent that my duty in the premises appears to be positive and unavoldable."

"There is an apparent truthfulness ward developed, he didn't know-and

statements are much more in harmony with the undisputed facts of the case than are Mr. Bryant's denials.

"The only way in which I can see that he could escape would be by the ruling that he. Bryant, was not acting in his capacity as an attorney, and for that reason is beyond the reach of the court in this proceeding.

"But that question was argued and decided against the respondent on his preliminary objections to the prosecution of this proceeding.

"As to the penalty, the respondent's misconduct has left no middle ground. He is a young man and of good reputation except as he may be affected by the proceedings here under review. If he had come into court acknowledging his error and expressing regret therefor, it may be that the law and the requirements of the situation might have been satisfied by something less than absolute disbarment.

"But when the respondent in such a case opposes the prosecution by every possible objection and denies the facts essential to the truth of the charge against him, there is left no escape from the logic of a situation thus created.

"Either the court must find him inno-

An inquest was held yesterday by Coroner Trout into the death of John Steen, who died Monday night at the Bisters' Hospital from the effect of scales received Saturday from the effect of scales received Saturday from the explosion of a Southern Pacific locomotive in a roundhouse at San Pedro.

The investigation, at the request of the officials of the railroad company, was very thorough, and evidence was adduced which showed that the accident was due to Steen's own carelessness. It developed that instead of properly attending to his duties, he climbed into the cab of the locomotive, after it had been housed and despite the fact that the boiler was full of steam and that the fire was still burning in the firebox, he went to sleep there. During his slumbers the steam pressure continued to increase until the boiler unable to withstand the pressure, exploded, hurling Steen a long dath through his own neglect in not having turned off the oil, the icomotive having bean of the control of the co

Miles, entertained sixty-eight guests at hearts in nooms so elaborately decorated that they resembled grottoes of greenery and flowers. To increase the effect the lights around the rooms were dimmed with pink shades. Bridesmaid roses used in profusion, asparagus plumosus, ferns and potted plants made the drawingroom a bower. The hall was massed with Easter lilies, the dining-room was rich in scarlet carnations, and the Turkish room was resplendent in blue, red and yellow flowers.

There were eleven tables. At the floor landing in the billiard room the Venetian orchestra of five pleces played. The ladies assisting the host-esses in receiving were Mrs. S. S. alisbury and Mrs. Erasmus Wilson, and the score punchers were Miss Peart Seeley, Miss Helen Salisbury, Miss Elizabeth Drake and Miss Miles. After the card playing Reynolds served refreshments.

The prizes and the winners were as follows: First prize, cut-glass vase, Miss Mary Babcock; second prize, Bohemian glass plate, Miss Mary Darling; consolation prize, sterling silver pin tray, heart-shaped, Mrs. John D. "Crystal Wedding."

"Crystal Wedding."

June 14, 1888, was the date of the marriage of Rev. Louis Agassiz Gould of Boston, Mass., and Miss Florence Louise Wailis of Racine, Wis., at the home of the bride. Somebody in Ocean Park, where Rev. Mr. Gould is preaching found it out, and somebody told. The ladies of the Baptist Church did the rest. Mrs. Gould was not. Hence it was a delightful surprise when the members and friends of the Baptist Church flocked to Beauvoir cottage and filled it and took possession of it.

Mrs. Gould were her wedding dress

and carried the fan she bore on the bridal day. The dress was of heavy corded livery slik, having high corsage and tight slee. S. The basque was cut in deep points front and back, laced in front with heavy slik cords, and richly trimmed with Valenciennes lace. The skirt was cut en traine, with many draperies and with a panier effect, in the style of a decade and a half ago. The veil was not worn.

To strains of music, played by Miss Wells, the bride and groom, preceded by Miss Estelle Cross of Los Angeles as flower girl, and followed by their daughters, Margaret and Harriet, entered the parlor, which was througed with guests, representing the many friends of the pastor and his wife. Flowers in abundance and many presents, commemorative of the "crystal wedding" were found upon the tables. Later in the evening Prof. C. S. Then the ladies of the church took charge of the house and soon invited the guests to the dining-room, where choice refreshments were served. Mr. Gould recounted experiences of the honeymoon, and of the Bridal trip to the Atlantic Coast and to Chins, and Mrs. E. W. Wheeler, master of dramatic expression, delighted those present with several selections.

In the middle of the forenoon yesterday, little Walter Welsh, aged about 7 years, was playing along the electric railway near his home in Hollywood, when a car approached going west. The brigade staff meravel, was so loud that he did not hear the approach of the car. Be that as it may, he suddenly turned as the car was close upon him, and attempted to cross the track in front of it. The car was going rapidly and passed over the child's body and rolled it along under the car, mutilating it in a horrible manner.

Were put hrough rapid evolutions by Capt. Fredericks. The brigade staff more a creditable showing.

Tomorrow evening in the Armory Companies A. C and F of the State Infantry will be inspected. Maj. Hardin is making a tour of the entire of it. The car was going rapidly and passed over the child's body and rolled it along under the car, mutilating it in

FIRST JOINT ANNUAL INSPECTION

fore Interested Military Audience.

United States regular army officer last night inspected the local State troops. Armory Hall was crowded for the high School, presented the paster and his wife with a crystal fruit dish in a silver standard, in token of the regard and esteem of the members of the Baptist Church and congregation, Mr. Gould responded in a few appropriate words.

Then the ledge of the paster and construction of the Seventh Infantry, stationed at the Presidio, San Francisco, was the inspecting officer. The brigade staff, the Signature of the subjects.

Keen and respectful interest was shown in the proceedings, there being present a very large representation of the local military citizenship, and many feminine admirers of brass buttons. The sturdy veteran, Maj. Hardin, scruevery soldier and the accouterment and then witnessed a thorough drill by

the companies' officers.

The militiamen presented an excelent appearance and acquitted themselves in fine style. Maj. Hardin made nigh officers has been transformed in-to a joint inspection under Federal auspices.

Maj. Hardin was immediately accom-

ters of the American Revolution informally today at "La Concha" Santa Monica. Capt. Thom has entirely recovered from his recent illness.

CHILD KILLED.

Little Hollywood Boy Run Down and Mangled to Death by an Electric Car.

In the middle of the forenoon yesterday, little Walter Welsh, aged about 7 years, was playing along the electric railway near his home in Hollywood, when a car approached going west. The child had a wagon and was running parallel with the track, and the little little little with the track, and the little little little little was the track, and the colose scrutiny, and then the men were put hrough rapid evolutions by
